

GANS

Global Air Navigation Services (GANS) is a limited liability company based in Abu Dhabi, UAE.

Since its establishment in 2007, it has specialized in providing a wide range of technical services related to the field of air navigation. GANS is active in both the civil and government sectors and is the only private sector air navigation services provider in the region certified by the UAE's General Civil Aviation Authority.

GANS is responsible for over 530,000 annual air traffic movements!

Therefore, we recognise it is of utmost importance that air traffic management systems are adequate and effective. We offer a full array of services in relation to air traffic management that will ensure airport service providers run their day to day operations in a smooth and practical manner.

AERIAL ACTIVITIES MANAGEMENT EXPERTS

The UAE plays host to many global events which will typically have some aviation component to manage.

Whether it is an airshow, fireworks display, aerobatic display, fly past, parachuting or air display, to manage all these activities GANS is at the forefront of aerial event management.

EXPERTISE IN SAFETY OVERSIGHT

GANS has the expertise to ensure the safe oversight and planning needed to ensure every event is a complete success.

Supported by accredited postholders in Safety Management and their specialist teams, GANS in collaboration with the Regulatory oversight of all UAE Government entities ensures full compliance with promulgated Civil Aviation Regulations and Advisory Publications. Safety is placed as the highest priority for all the planning, implementation and running of world class aviation events and local aviation activities.

AERIAL ACTIVITY CONSULTANCY

GANS staff is highly trained and is fully conversant with all facets of aerial event activities.

GANS has a diverse cross section of subject matter experts that provide planning oversight and on site management of the events.

DEPLOYABLE TOWER SERVICES

The ability to deploy towers remotely and on site at any event provides a professional operational working environment for our well trained staff to provide Air Traffic and Aviation Support services at events throughout the United Arab Emirates.

All the equipment is acceptable within both civil and government operations which allows interoperability with all agencies.

Technical support is provided by our own gans operatives ensuring an uninterrupted delivery of service.
